EDUCATION

(Meta - facebook) ReactJs Course

Coursera
Master React.js through hands-on projects and gain practical experience in building dynamic web applications.

Epic ReactJs

Epic
I completed an intensive React.js course with Epic, gaining in-depth knowledge of building dynamic web applications. Throughout the course, I honed my skills in component-based architecture, state management, and creating responsive user interfaces.

NextJs - Advanced Css

Udemy
I completed an intensive Next.js course, diving into server-side rendering, routing, and building dynamic web applications. I gained practical experience in creating fast, SEO-friendly websites using this powerful React framework. and also In the Advanced CSS course, I explored cutting-edge techniques for styling web pages. From flexbox and grid layouts to animations and responsive design, I honed my skills in crafting visually appealing and interactive user interfaces.

React Js Bootkamp

Maktab sharif

EXPERIENCE

Amer Andish Hooshmand (AI Company)

Part time
Tehran, Iran
May, 2024 – Present

Senior Frontend developer

- As a frontend developer at Amer Andish Hooshmand, I contribute to cutting-edge AI projects while balancing my role as a part-time team member. Leveraging Next.js (latest version), TypeScript, and Framer Motion for animations, I create seamless user interfaces that enhance the user experience. Additionally, I work extensively with charts to visualize complex data, ensuring our AI solutions are both powerful and user-friendly.

Moalem Insurance (Insurance Company)

Part time
Tehran, Iran
Jul, 2024 – Oct,2024

Frontend developer

- Developed and optimized a high-performance online damage assessment platform using Next.js, ensuring fast rendering and seamless user interactions.

Bimany (Central Insurance of Iran)

Full time
Tehran, Iran
1.5 years (2022 – 2024)

Frontend developer (engineer)

- At Bimany Company, the esteemed Central Insurance of Iran, I played a pivotal role for over 1.5 years as a frontend developer specializing in Next.js, TypeScript, and Framer Motion for animations. Additionally, I worked extensively with charts to visualize complex data, ensuring a seamless user experience. As part of this state-owned institution, I contributed to the regulation, expansion, and guidance of insurance operations in Iran. My responsibilities included ensuring the protection of insured individuals and beneficiaries while maintaining government supervision.

Bimer (Brokerage Insurance Co)

Full time
Isfahan, Iran
6 months

Frontend developer

- As a frontend developer at Bimer Company, a dynamic brokerage insurance firm, I gained valuable experience over the course of 1 year. Collaborating with clients and insurers, I honed my skills in risk assessment, policy negotiation, and client satisfaction.

Nezhoda

Full time
Isfahan, Iran
6 months

Frontend developer

- As a frontend developer at Nezhoda Company, I specialized in ReactJS, contributing to the development of scalable web applications. Leveraging the power of a virtual DOM, I created fast, fluid user interfaces. During my tenure, I gained valuable experience in frontend techniques, including React, TypeScript, HTML5, and CSS. I also collaborated with Git for code versioning and followed Agile development methodologies.
